I am passionate about technology and constantly exploring innovative solutions. My goal is to work as a front-end developer or web designer. With experience in managing app development projects and completing various courses in front-end development and software programming, I am prepared to contribute to digital advancements and create impactful solutions in the tech industry.

Work Experience

Yayasan Al-Hadiid   **2023 - Present**

An institution that manages various educational, religious, and humanitarian units.

Manage and maintain the school website, ensuring content is always up to date and relevant, optimizing website performance, publishing the latest information, and implementing new features according to school needs.

Internship Experience

Pubmedia   **January - March 2025**

Designed and built website structure to ensure clear navigation and intuitive user flow, created user interface (UI) designs focusing on usability and aesthetics, and implemented designs into a WordPress platform using Elementor, ensuring responsive and functional layouts.

Kafamilk   **January - March 2025**

Designed and built website structures to ensure clear navigation and intuitive user flow. Created user interface (UI) designs emphasizing simplicity and informativeness, focusing on delivering a clean layout that effectively communicated content while maintaining user-friendliness and visual appeal. Implemented UI designs into Berdu, ensuring responsive and functional layouts across various devices.

Serena Hills   **January - March 2025**

Created user interface (UI) designs tailored to client needs, focusing on usability, aesthetics, and delivering a visually appealing yet functional experience. Implemented the approved UI designs into a WordPress platform using Elementor, ensuring the final product was responsive, aligned with client expectations, and optimized for various devices.

Education

S1 Sistem Informasi UIN Syarif Hidayatullah Jakarta   **2024 - Present**

- Learned methodologies for software project management and development.
- Developed competencies in designing and developing websites.
- Gained knowledge in designing and managing database systems.
- Acquired skills in various programming languages for software development.

Skills

Hard skills

- **Programming Languages:** HTML, CSS, JavaScript, Python, Java, C#, PHP, MySQL, R, C
- **Software:** Microsoft Word, Excel, PowerPoint, Inkscape, Figma, Canva, Visual Studio, Dev-C++, Git, Microsoft Visual Basic .NET
- **Frameworks & Libraries:** Laravel, Tailwind CSS, Next.js

Soft skills

Possesses good leadership skills in leading a team to achieve common goals and effective communication to convey information. Able to work collaboratively in a team, responsive and quick in completing tasks, and skilled in time management to finish tasks on time.

Project

- **Personal Website:** Created using Next.js, Tailwind CSS, and TypeScript to showcase my work and personal information online, with optimized performance and a responsive user experience.
- **Tech Edify Mobile App**: An Android app using Google Spreadsheet for learning materials, designed for high school students to learn informatics interactively.
- **WordPress-Based Informatics Learning Website:** Developed a WordPress website for informatics learning, featuring 3D flipbooks for materials, quizzes, Techie assistance (admin bot), and discussion/comment sections for each material, similar to the Tech Edify mobile app but in a web format.
- **UI Design for Yayasan Al-Hadiid Website:** Designed a user-friendly and visually appealing interface using Figma, ensuring the design reflects the foundation's values and mission.
- **Globe Trekker Travel Platform Design:** Designed a travel platform focusing on an intuitive user experience, including features like login, booking, and supporting pages, with visual elements reflecting the Globe Trekker brand identity.
- **Sky Solutions - Website Iclimate Change:** A climate change website featuring tools to calculate vehicle carbon footprints and check weather conditions through API integration.

Licience and Certification

- **Organization:** Ketua Divisi Sosial dan Humas OSIS SMA dan Duta SMA Al-Hadiid
- **Fundamental Programming:** Brightcamps Coding, CODEPOLITAN (Dasar Pemrograman Komputer, Algoritma dan Pemrograman Dasar), Dilesin (Dasar Pemrograman C++), Sololearn (Introduction to Python), Dicoding (Programming Logic 101, Dasar Pemrograman Web, Dasar AI), Microsoft Learn (Fundamental AI Concepts, Fundamental Machine Learning)
- **Web Development:** Digital Skill Fair Dibimbing (Front-End Development), Harisenin Coding Camp (Front-End Developer), AlwaysNgoding (HTML, CSS, JS, PHP, MYSQL)
- **Programming Language:** CodingStudio (Fundamental Python, Fundamental Java), Dicoding (Software Developer, Data Visualization, Dasar Pemrograman JS), DQLab (R Fundamental for Data Science)
- **UI/UX Design:** Digital Skill Fair Dibimbing (UI/UX Design)
